INAUGURAL BULLETIN ANNOUNCEMENT. With this announcement we are starting a monthly bulletin which we hope will be of value to our membership and will let our out-of-town members feel closer to their "Big-D" kinfolk.

There are plans to give you a monthly listing of new issues as listed in "Whitman Numismatic Journal". We hope in the future to give you information that will assist in the dating and identification of Asiatic and other problem coinages and articles of timely interest. Suggestions concerning particular dating systems or other items would be appreciated.

We have some contributions from members which will appear in future issues and we will welcome items of news and articles from all of our budding authors.

We sincerely wish this effort to be a success and will appreciate your comments, suggestions, and criticisms.

Please address all mail concerning the bulletin to: Numismatics International, Bulletin Editor, P. O. Box 30013, Dallas, Texas 75230.

This catalogue covers Gold, Silver, Nickel, and Aluminum coins (no copper or cash coins) and is the Bible on China, Manchuria, Mongolia, Sinkiang and Tibet from 1837-1953. The original "Kann's" have sold as high as \$225.00 at auction. The reprint contains revised 1966 prices along with the original 1954 prices and sells for \$25.00. If enough members write and indicate an interest in this book, the club will attempt to secure them at a discount and pass the savings on to you. A fuller description of the book is contained on page 70 of the January, 1967 issue of World Coins magazine.
